If you struggle with mental health difficulties it may mean you have more bad days than good days. We can help you manage your mental health at work so you can enjoy more good days.

The Access to Work Mental Health Support Service is funded by the Department for Work and Pensions meaning there is no charge to use this service.
What support can I get?
You’ll be supported by a qualified health care professional, who will:

- Help you build a support plan that suits your needs and daily routine
- Meet you face-to-face or talk over the phone
- Connect you to local specialist support organisations
- Give you access to our free online hub, where you can find advice on coping with mental health conditions
- Guarantee a 100% confidential service. Your employer, friends or family will not know unless you decide to tell them.
