

Review of the Article of Association – Ballot of the Membership

In accordance with the findings of the Member Review Panel consultation and final report, the board will be conducting a ballot the membership on the future structure of the Institute.

The Member Review Panel report concluded that members felt the committees unnecessary and that the Institute should be managed by a single board of directors hence the forthcoming ballot.

Currently, the articles of association are being revised by a company lawyer to remove the committee structure. It is proposed that a single board of directors will be made up of eight members with eligibility to stand for election remaining unchanged. Directors will be elected for a three year term with the Deputy President being elected annually. Should members vote in favour of change, an election will be conducted with the new board convening in April 2011. (Should members not vote in favour the structure will remain unchanged with only minor amendments as required by the Companies Act 2006).

In order to provide continuity the Deputy President, President and Chairman in office at the time will remain until the end of their terms thus ensuring an annual turnover.

During late July of this year all paid up members will receive a copy of the draft articles and a ballot paper on which to cast votes. The closing date for the ballot will be the Friday prior to the conference AGM with the result being announced at the AGM.
