Financial position and commitments for the year
Directors were updated that the current financial position is still broadly inline with the budget for the year.
The Institutes core activities and performance is profitable, external factors were affecting the Institute’s surplus making potential.

At the moment the Institute was making a small surplus for the year 2008/9. At this time last year we were making a £6,000 loss.

That a previous Board minute stipulated that up to £100,000 in reserves were to be invested in the development of the Institute over the period 2007/8 – 2009/10.

That the original budget estimate for this year stipulated that a loss of around £35,000 was a serious possibility.
