

The Journal of the Institute of Cemetery & Crematorium Management (Inc)

Advertisement Tariff Summer 2020 - Spring 2021 Editions

In February 1935 the first issue of the forerunner of the present Journal was produced. Then a modest black and white publication, with no or few images, it has been produced for the past 84 years with unfailing regularity and evolved into a full colour glossy magazine reflecting the changes in bereavement service provision.

Published quarterly, The Journal keeps pace with and chronicles those changes and the initiatives sweeping through the sector both in the UK and abroad.

Its current circulation is 1350 made up principally of ICCM Professional and Corporate members and the remaining recipients (who pay to subscribe) are primarily those providing products and services to cemeteries, crematoria and bereaved people.

All full page adverts for The Journal are set to A4 size H297mm x W210mm; Half page H148 x W210mm and Quarter page H148mm x W105mm. If the advert has a background that runs to the end of the page we will require a 3mm Bleed on each edge of the document; for example an A4 advert that has a full background that extends beyond the boundary of the page will be setup to a height of 303mm and a width of 216mm – A4 plus 3mm on each edge of the advert.

The preferred format for adverts is PDF with any graphics set to the CMYK colour model, and as high resolution 300dpi or above, fonts embedded and transparencies flattened. A good way of achieving this is to save the PDF to the PDF/X-3:2003 Standard.

We also accept Graphics formats such as PSD, TIFF and JPEG, as with other formats these images should be set to 300dpi or above, use the CMYK colour model and have 3mm bleed area on each edge if the background extends to the edge of the paper.

Vector formats are also acceptable, such as EPS, Adobe Illustrator and Corel Draw. The same restrictions on colour, resolution and bleed apply and it is advisable to change text to outlines which will bypass any font issues.

Adobe Indesign is the primary design tool here and Indesign files can be submitted. It is advisable to package the document, which will include the fonts, images etc and as with the other file formats, colour, resolution and bleed considerations must be taken into account although it is recommended that fonts are converted to outlines to negate any font issues.

MS Word, Publisher and Powerpoint and other Office applications; although it is possible to create adverts using these programs, results may be variable and because they are not designed to produce print ready work you may be charged for the conversion and remedial work undertaken to make these files ready for the print process.

We try and maintain a pragmatic approach to the submission process so if you have any questions, queries with the technical issues of the job or any other aspect of the process, please feel free in contacting Sofia Allana on 07502 627521.
