EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations amend the Cremation (Scotland) Regulations 1935, "the principal regulations". Regulation 8 of the principal regulations specifies that no cremation is permitted unless there are produced a certificate in Form B in the Schedule to the principal regulations from the medical attendant of the deceased, and a confirmatory certificate in Form C given by another doctor. Regulation 3 of these regulations inserts a new regulation 8A in the principal regulations to dispense with the requirement for a certificate in Form C where the deceased died as an in-patient in a hospital, a post-mortem examination has been made by a suitably qualified doctor and the deceased's medical attendant knows the result of that examination before giving his certificate in Form B. Regulation 4 of these regulations makes consequential amendments to Form B.

Regulation 8 of the principal regulations requires that a certificate in Form C be given by a medical practitioner of not less than 5 years' standing. Regulation 2 of these regulations amends regulation 8 so as to require that such a practitioner be a registered medical practitioner of not less than 5 years' standing. Regulation 5 makes a consequential amendment to Form C.
