- * select suitable accounting policies and then apply them consistently;

They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention of fraud and other irregularities

So far as the directors are aware, there is no relevant audit information (as defined by Section 234ZA of the Companies Act 1985) of which the company's auditors are unaware, and each director has taken all the steps that he or she ought to have taken as a director in order to make himself or herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Notes to the Financial Statements

for the Year Ended 31 March 2007

1. Accounting policies

(a) Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005). The financial statements incorporate the results of the principal activity which is described in the directors' report and which is continuing.

In the opinion of the directors, a profit and loss account drawn up in compliance with Schedule 4 to the Companies Act 1985 would not provide a true and fair view of the company's affairs. Advantage has, therefore, been taken of the provisions of Section 228 (5) of that Act.

(b) Cashflow statement

The company has taken advantage of the exemption in FRS1 for small companies not to prepare a cashflow statement.

(c) Income

Income is recognised in the period in which it is invoiced or received.

Membership fees are recognised as income in the year of admission.

All income for the year is attributable to the principal activity of the company, and arises entirely in the United Kingdom.

(d) Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life:

Computer equipment - 33.33% straight line

Fixtures and fittings - 15% on written down value Plant and machinery - 15% on written down value

(e) Deferred tax

Deferred tax is recognised in respect of all material differences that have originated but not reversed at the balance sheet date.

(f) Stock

Stock is valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Notes to the Financial Statements

for the Year Ended 31 March 2007 (continued)
